

SOUTHWEST VIRGINIA

LEED Workshop: Core Concepts & Strategies

Presented by the U.S. Green Building Council

The workshop provides essential knowledge of sustainable building concepts that are fundamental to all LEED Rating Systems. It begins with an introduction to the benefits and integrative approach to green building, and a brief background on the U.S. Green Building Council and LEED, including basics of the building certification process. The core of the workshop presents LEED intents and concepts at the credit category level – across building types and rating systems – touching on strategies, synergies, and specific examples that are reinforced by real project cases. Key LEED metrics and LEED referenced standards are addressed throughout the workshop. Interactive activities within the course keep you engaged and reinforce what you’ve learned.

LEARNING OBJECTIVES

After completing this course, you will be able to:

- Identify the key components of the LEED rating system
- Discuss the basic LEED certification process
- Describe the intents and associated concepts of each LEED credit category
- Recognize successful LEED strategies and measurements for achieving credit category goals
- Explain regulations, recognitions and incentives related to each credit category

WHO SHOULD ATTEND?

This workshop is intended for anyone who wants more than a basic understanding of LEED – including those with a stake in their company’s or community’s building practices, those directly involved in green building projects, and those pursuing GBCI’s LEED Green Associate credential. This is what you need to learn to take the LEED Green Associate exam, the first step at becoming a LEED AP with Specialty, the new standard in LEED.

LEARNING LEVEL

This is a 300-level LEED course.
Recommended prior knowledge is not required.

CONTINUING EDUCATION CREDITS

| | |
|----------------|----|
| AIA/CES (LU) | 7 |
| CSI (CEU) | .7 |
| BOMI (CPD) | 7 |
| IFMA (CFM/FMP) | 7 |

SPONSOR:

This workshop is being hosted by the Southwest Virginia Chapter of USGBC & its affiliate Branch, the Holston Valley Green Building Coalition.

It is sponsored by People Incorporated of Virginia’s Green Building Training Center. If you wish to become a sponsor for this event or wish to become involved in other USGBC events, please contact:

INSTRUCTOR

The Faculty currently scheduled for this workshop (subject to change): **David Freedman**

| Cost | Before 06/22/10 | On or After 06/22/10 |
|------------------------|-----------------|----------------------|
| USGBC National Member* | \$325 | \$390 |
| Non-Member | \$355 | \$440 |

*Employees of companies that are members of USGBC national receive discounted rates on all workshop offerings & reference materials.

REGISTRATION INCLUDES:

- Instruction from official USGBC Faculty who are experts in LEED and trained in facilitation and adult learning techniques.
 - Participant workbook, which includes interactive learning activities based on real LEED projects and a glossary of key green building definitions
 - Continuing education for 7 hours of instruction directly reported to AIA and CSI; certificate of completion for self-reporting to other professional organizations
 - Continental breakfast, lunch and refreshments
 - Upon completion of a post-workshop survey, access to additional supplementary resources
- This course, like all USGBC LEED education programs, meets GBCI eligibility requirements for the LEED Green Associate.
